Following Dr. Freeman's address, gratifying reports were read from the various representatives who are conducting a campaign throughout the country for the raising of the \$10,000,000 necessary to finish the cathedral.

Many distinguished clergy and lay members of the different Episcopal churches were present. Preceding the assembly communion services were conducted by Bishop Harding, assisted by Very Rev. G. C. F. Bratenahl, dean of the cathedral, in Bethlehem Chapel.

TEACHERS' SALARY INCREASE GETS O. K. OF D. C. COMMITTEE

(Continued from First Page.)

It should not be permitted to set their interests aside in order to serve the public interest, and that they could well afford to pay higher rents. He urged that action should be taken to make the commission function in the interests of the people who find the heavy rents a very serious burden.

Amendment Proposed.

On the suggestion of Representative Reed of West Virginia it was agreed that an amendment should be inserted to exempt farm property.

Representative Woodruff said that he would favor an amendment allowing a purchaser who desired to get the property out of the hands of the speculator a chance to get possession of his own property.

Representative Underhill of Massachusetts said that the situation in the District regarding rents is "deplorable." He said that no one who might endeavor to delay the bill in committee it would be reported out and would undoubtedly pass the House.

Representative Reed of West Virginia said that the bill was originally passed by the House and that he had better grounds now than then for opposing it. He charged that the rent commission is costing the people of the country \$55,000 a year and that if this money was given to the building inspector's office in the District of Columbia, it would be better given first to the building inspection office.

Representative Spruell endeavored to get through a motion to kill the bill rent act.

### DONATE ADDITION TO CATHEDRAL SITE

(Continued from First Page.)

received for the Protestant Episcopal Cathedral Foundation of the District of Columbia: "A corporation for the promotion of religion, education, and charity."

The first land acquired was a tract of thirty-five acres, in 1898, and the final payment of \$50,000 to clear this original purchase of all indebtedness was made by the late Mrs. Julian James. The tract was then squared off by the purchase of the Newlands property of nine and a half acres a few years later. After this the square was divided by Garfield street, 35th place and 35th street, and consisting of four acres, was purchased by the square, bounded by Garfield street, 34th place and 34th street was recently acquired and these three tracts brought the total acreage up to fifty-two.

Bishop Harding Presides.

Rev. Alfred Harding, Bishop of Washington, presided at the meeting, at which were present representatives from forty-one committees of the association throughout the United States. Rev. James E. Freeman of Epiphany Church delivered the principal address.

Dr. Freeman took as his theme "Building of a Modern City" and spoke from the text, "Let us build a city and a tower whose top may reach unto heaven, and let us make it a name. And the Lord came down to see the city which the sons of men builded."

Dr. Freeman indicated how the great cities of the world had been built, and said: "We are building here in Washington what must ultimately come to be, if present plans are carried out, the most beautiful city in the world."

"Washington today is architecturally splendid," continued the clergyman, "but its architectural splendor witnesses largely material things. We have not done justice to our spiritual ideals in what we have created."

Symbols Spiritual Ideals.

"Buildings represent incarnate principles. They are the witnesses of the faith that is in us. The great cathedral that is to rise on this hill is to symbolize the faith of a nation of people. And it is to occupy its own distinct place in the capital as the representative of that which is to be the guarantee and permanence of our security and permanence as a nation."

Following Dr. Freeman's address, gratifying reports were read from the various representatives who are conducting a campaign throughout the country for the raising of the \$10,000,000 necessary to finish the cathedral.

Many distinguished clergy and lay members of the different Episcopal churches were present. Preceding the assembly communion services were conducted by Bishop Harding, assisted by Very Rev. G. C. F. Bratenahl, dean of the cathedral, in Bethlehem Chapel.

She could eat anything

—without indigestion or sleeplessness

For a time she had been troubled with gas after her evening meal. The distress was most painful after eating potatoes or other starchy foods, of which she was very fond.

Then she started taking two cakes of Fleischmann's Yeast every night between her evening meal and bed. She poured about a half cup of boiling hot water over the yeast cakes, stirred them thoroughly, added a little cold water and drank.

She found she could eat anything and sleep splendidly afterward.

Thousands of men and women are finding that Fleischmann's Yeast corrects stomach and intestinal troubles. It promotes the flow of bile and pancreatic juice. Appetite is always kept normal and you are protected against indigestion.

Add 2 to 3 cakes of Fleischmann's Yeast to your daily diet. You will find that your whole digestive system is greatly benefited. Be sure it's Fleischmann's Yeast—the familiar tin-foil package with the yellow label. Place a standing order with your grocer for Fleischmann's Yeast.
